Re: Application for Study Permit and TRV made outside Canada

Amir Ranjbar, UCI: 95998042, DOB: November 28, 1998

Dear Visa Officer,

I am applying for a new study permit and temporary residence visa due to being outside Canada at the time of expiry of both the mentioned documents.

Currently, I am enrolled at Toronto Metropolitan University (formerly Ryerson University) in the Bachelors of Science in Computer Science program. When I initially applied to come to Canada in August 2018, I was admitted to the Bachelors of Science in Information Technology (IT) at York University. However, I noticed that I was more interested in Computer Science and decided to transfer to my current university.

I was unable to renew my application in time due to my passport's expiry date. However, please note that my passport is now renewed in my country of residence (UAE), and a copy is submitted alongside this application. Thank you.

Sincerely,

Amir
